

Course 1- ESG & CSRD focused on plastics

7 & 8 January 2025

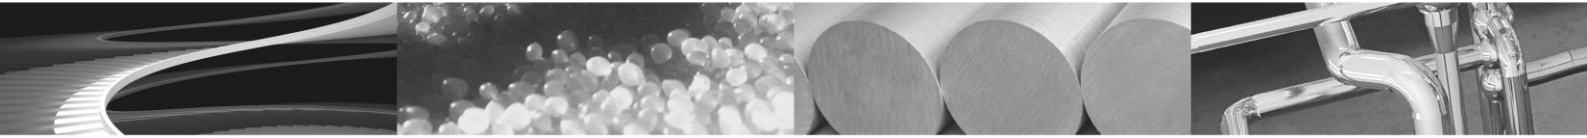

Introduction to the Course

The European Union's Corporate Sustainability Reporting Directive (CSRD) and the growing focus on Environmental, Social, and Governance (ESG) practices present both challenges and opportunities for the plastics industry.

This 2-day course is designed to help you understand and navigate these new requirements, offering practical guidance on how to integrate CSRD and ESG principles into your business operations.

This course aims to equip you with the knowledge and tools necessary to develop effective ESG strategies and reporting processes tailored to the plastic industry.

Lecturers:

Hülya Ucar
PhD, Circularity/Recycling

Nadja Damtoft
PhD, Sustainability accounting

Course Program

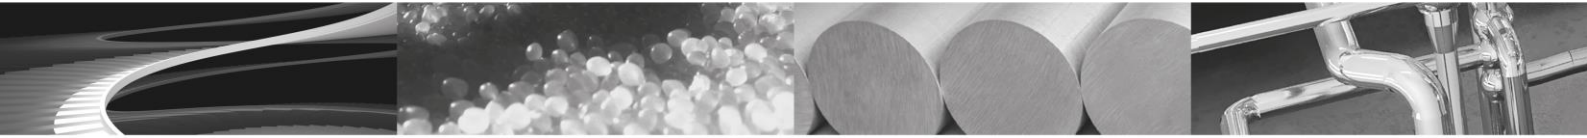

Day 1: Understanding CSRD and ESG Compliance

- 09:00 - 09:30: Welcome and Introduction to CSRD and ESG in the Plastic Industry
