

Course 2- LCA & Digital product passport

14 & 15 January 2025

Introduction to the Course

As sustainability becomes a core business priority, understanding and implementing Life Cycle Assessment (LCA), take-back programs, and digital product passports are essential for companies aiming to reduce their environmental impact and meet regulatory requirements.

This 2-day course is designed to provide you with a comprehensive understanding of these key concepts, offering practical insights into how they can be integrated into your business operations.

Through expert-led sessions and hands-on workshops, you will learn how to conduct LCAs, gain knowledge about effective take-back programs, and gain insight into utilizing digital product passports to enhance transparency, traceability, and sustainability across your products' life cycles.

Lecturers:

Hülya Ucar
PhD, Circularity/Recycling

Nadja Damtoft
PhD, Sustainability accounting

Course Program

Day 1: Life Cycle Assessment (LCA) and Take-back Programs

09:00 - 09:30: Welcome and Introduction to the Course
